ACTIVITIES

Woodland School District 50 - Gurnee, IL

May 2015 - August 2019

Seasonal Information Technology Assistant

- Configured, installed, and patched new network switches, and securely cleared obsolete equipment configurations prior to recycling to maintain information security.
- Enhanced network security through updating staff laptops and student computer labs to latest versions of operating systems and various software tools.

EXPERIENCE

IU Radio and Television Services - Bloomington, IN

January 2024 - Present

A1 Engineer

- Mix broadcast audio for B10+ sporting events and effectively troubleshoot problems in a high-pressure environment.
- Collaborate with the A2 engineer to support field-side operations, including the set-up and tear down of equipment.

IU Department of Theatre, Drama, and Contemporary Dance - Bloomington, IN

August 2023 - Present

Sound Assistant

- Set-up and dismantle Clear-Com communication systems for tech rehearsals to ensure smooth communication between production teams.
- Configure TheatreMix software and operate a Midas M32 sound board for musicals like *Head Over Heels*, including the nightly setup and management of actor microphones, ensuring high-quality and smooth-running performances.

Glenbard School District 87 - Glen Ellyn, IL

May 2020 - August 2024

Seasonal Information Technology Intern

- Executed deployment and documentation of a district-wide video-on-demand system, centralizing access to visual media across school libraries.
- Supported district-wide and school-level 1:1 iPad deployment for freshmen, assisting with deployment and providing help desk support.
- Assisted in upgrading district networking infrastructure by removing outdated cabling, running new network lines, and assembling server racks to support new equipment installation.
